Mac OS X Map a Network Drive

Step 1 - Open Map Dialogue

- Select Finder
- Open the Go menu and select Connect to Server

Ś	Finder	File	Edit	View	Go	Window	Help			
						ick			¥[
					Fo	rward			¥]	and the second
·					Se	lect Startu	Disk on De	esktop 企	₩ ↑

					0	Network		ن	ЖK	
						iDisk			•	
					A	Applicatio	ns	Û	ЖA	
					B	Document	ts	Û	жΟ	54 A. A.
					X	Utilities		٥	жU	
					Re	ecent Folde	rs		•	in.
					Go	to Folder.		仓	жG	
					Co	onnect to S	erver		ЖK	

Step 2 - Enter the Drive Name

- Type *smb://server_name.win.ad.jhu.edu/sharename* into the **Server Address** field, where *share* is the name of the folder you are trying to connect to.
 - **NOTE**: You **MUST** replace the word *sharename* with the share you're trying to map (eg. public, ms, your username).
 - Clicking the + button will add the share to your favorite servers list for easy access in the future.
- Click **Connect** to connect to the share. The connection will then prompt you for your credentials.

90	Connec	t to Server	
Server Address:			
smb://storage0	L/sharename		+ 07
Favorite Servers:

	_		

Step 3 - Enter Campus Domain Account Information

- Type *WIN* into the **Workgroup or Domain** field.
- Type your JHED username into the **Name** field.
- Type your JHED Password into the **Password** field.
- After clicking **OK** you can access the mapped drive from your desktop, as seen below.

챘	Enter your name and password for the server "storage01".	
•	Connect as: 🔘 Guest	
	Registered User	
	Name: username	_
	Password:	
	Remember this password in my keychair	ı.
	Cancel Conne	ct

• After clicking **OK** you can access the mapped drive from your desktop, as seen below.

• After clicking **OK** you can also access the mapped drive using the **Finder** application, as seen below.
